DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: there are no prior arts teaching or suggesting of a system for providing communications over an electric power system having a medium voltage power line, a plurality of customer power lines with each extending to a customer residence, and a first transformer coupling the medium voltage power line to the customer power lines, the system comprising:

an aggregation device forming a portion of a data path between the medium voltage power line and a point of presence;

a first transformer bypass device communicatively coupled to the medium voltage power line and the plurality of customer power lines to provide a data path bypassing the first transformer;

the first transformer bypass device comprising a first modem communicatively coupled to the plurality of customer power lines and a second modem communicatively coupled to the medium voltage power line and the first modem;

a first isolation device forming at least part of a data path between the second modem and the medium voltage power line; and

wherein data is communicated between the transformer bypass device and the aggregation device via the medium voltage power line.

Art Unit: 2636

In the method of communicating Internet packet data through a communication system

to a communication device, the method comprises isolating the first low voltage power

line from the medium voltage power line.

Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from

examiner should be directed to primary examiner Van Trieu whose telephone number
